ACKNOWLEDGEMENT

I take the opportunity to express my sincere gratitude to all who has given guidance, consistence advice and encouragement to complete this report.

I always be very graceful to Dr. Henry Raja, Principal, Scott Christian College (Autonomous), Nagercoil for giving me an opportunity to undergo my Bachelor degree in Business Administration.

I express my deep sense of thanks to Dr. G. Jones Green, Head of the Department of Business Administration.

I acknowledgement my sincere gratitude to my guide Dr. G. JONES GREEN, Head & Associate Professor, Department of Business Administration for his guidance and suggestions whenever I approached him and for giving all the facilities to complete the report successfully.

I thank the faculty members of the Department of Business Administration for their help and valuable suggestions.

INTRODUCTION

Welcome, everyone! Today, we embark on an exciting journey into the world of painting, a timeless art form that transcends cultures and generations. Painting is not just about applying color to a canvas; it's a profound means of self-expression, storytelling, and emotional exploration.

The Power of Painting

Painting allows us to communicate in ways that words often cannot. Each stroke of the brush is a reflection of our thoughts, feelings, and experiences. Whether through abstract forms, realistic depictions, or imaginative landscapes, artists have the power to evoke emotions, provoke thought, and inspire change.

Exploring Techniques and Mediums

In this project, we'll explore a variety of painting techniques and mediums:

- 1.

Watercolor: Known for its fluidity and transparency, watercolor painting encourages spontaneity and experimentation. We'll delve into washes, wet-on-wet techniques, and layering to create luminous effects.

- 2.

- 3.

Acrylics: Fast-drying and versatile, acrylic paints can mimic both watercolor and oil effects. We'll learn about color mixing, texture creation, and various application methods to achieve stunning results.

Oils: Renowned for their richness and depth, oil paints allow for detailed blending and layering. We'll explore traditional techniques like glazing and impasto, unlocking the full potential of this classic medium.

INDUSTRY PROFILE

over 100 years old. Its beginning can be traced back to the setting up of a factory by Shalimar Paints in Calcutta (now Kolkata) in 1902. Until World War II, the industry consisted of small producers and two foreign companies. After the war, the imports stopped, which led to the setting up of manufacturing facilities by local entrepreneurs. Still, the foreign companies continued to dominate the market. Initially British paint companies such as Goodlass Walls (now Goodlass Nerolac), ICI, British Paints (now Berger Paints), Jenson & Nicholson and Blundell & Eomite dominated the market.

There are now twelve players in the organized sector of India's paint and coatings market and over 2,000 in the unorganized sector. In 2003-04, the organized sector held 70% share of the approximately \$1.5 billion (Rs 6,800 crore) industry, while the balance was made up of the unorganized units.

The major players are Asian Paints, Goodlass Nerolac, Berger, ICI and Shalimar. Recently, world leaders like Akzo Nobel, PPG, DuPont and BASF have set up

base in India with product ranges such as auto refinishes, powder coatings and industrial coatings. Kansai Paints of Japan, which entered into collaboration with GoodlassNerolac in 1984, is now the holding company for Goodlass Nerolac with 64.52%equity holding. PPG has a joint venture with Asian Paints to manufacture industrial coatings. Jenson & Nicholson and Snowcem India are no longer active players because of dwindling sales in recent years.

In the 1990s, helped by a growing economy, the Indian paint industry recorded a healthy growth of 12-13% annually. This was mainly due to a drastic reduction inexcise from a staggering 40% to 16%. However, the growth was restricted in 2002-03 to single digits. There was a revival in 2003-04 with a robust growth of 13%.

The Indian paint industry has two main market segments-industrial and decorative paints. While industrial paints are used for protection against corrosion and rust on steel structures, vehicles, white goods and appliances, decorative paints are used in protecting valuable assets like buildings

CHAPTER-2

COMPANY PROFILE

Liz magic brush

Liz magic brush is the proud owner of the renowned and trusted brand paints. Established in the year 2021, the company has grown from strength to strength in South Indian and Middle East Markets.

The company's high quality manufacturing standards and innovation in fashion has helped Shelton to create a niche for itself.

Founded by Mr.S.Ananad valan in kottaram the company plays an important role in providing employment to this small but fast growing town.

OBJECTIVES OF THE COMPANY

The main objectives of Liz magic brush are as follow;

- To carry on manufacture of yarn at low cast.
- To produce high quality products
- To provide more employment opportunities
- To believe in healthy industrial relations and human treatment to employees
- To maintain higher ethical standards with its supplier and customers.

- To continuously upgrade the quality of human resource of the company and promote development.
- To enter in to foreign collaboration.
- To establish technical institution to provide the training to the employees.

ORGANIZATION STRUCTURE

CHAPTER - 4

PRODUCT PROFILE

Asian Paints Product Profile

Overview

Asian Paints is one of the largest paint companies in Asia and a leading player in the decorative and industrial paint segments. Founded in 1942, it has grown to offer a wide range of products, including interior and exterior paints, enamels, wood

finishes, and more.

Key Product Categories

1. **Interior Paints**

- **Emulsions**: High-quality, washable paints in various finishes (matte, silk, satin).
- **Distempers**: Economical options for budget-friendly applications.
- **Specialty Finishes**: Unique textures and effects for decorative purposes.

2. **Exterior Paints**

- **Weatherproof Coatings**: Designed to withstand harsh weather conditions.
- **Acrylic Paints**: Flexible and durable options for long-lasting results.
- **Anti-fungal and Anti-algal**: Protects surfaces from growth of fungi and algae.

3. **Wood Finishes**

- **Varnishes**: Clear finishes that enhance and protect wood surfaces.
- **Stains**: Options for coloring and preserving wood grain.

4. **Metal Finishes**

- **Enamels**: Tough, glossy finishes ideal for metal surfaces.
- **Rust Preventive Coatings**: Protect metal surfaces from corrosion.

5. **Primers and Undercoats**

Jotun Paints Product Profile

Overview

Jotun Paints is a reputable paint manufacturer known for its high-quality coatings and finishes. Established in Turkey, the brand has expanded its reach across various regions, offering innovative and durable paint solutions For both decorative and industrial applications.

Key Product Categories

Interior Paints

Emulsions: Available in various finishes (matte, satin, silk) designed for easy application and washability.

Textured Paints: Unique options that provide depth and character to indoor

spaces

Exterior Paints

Acrylic Paints: Durable and weather-resistant formulations suitable for various surfaces.

Silicone-based Paints: Offers superior water resistance and breathability.

Wood Finishes

Varnishes and Lacquers: Protective and decorative finishes for wooden surfaces, enhancing natural beauty.

Wood Stains: Options to color and protect wood, maintaining the grain's visibility.

Metal Finishes

Enamels: Glossy and matte finishes that provide a durable coat for metal surfaces, preventing rust and corrosion.

Anti-corrosive Primers: Essential for metal surfaces to enhance longevity.

Primers

Specialized primers designed for various substrates, ensuring better adhesion and durability of topcoats.

Dulux Paints Product Profile

Overview

Dulux is a well-established brand in the global paint industry, known for its high-quality decorative paints and coatings. Part of the AkzoNobel group, Dulux has a rich heritage and is recognized for its innovation, color expertise, and commitment to sustainability.

Key Product Categories

Interior Paints

Emulsions: A wide range of washable, durable paints available in various

finishes (matt, satin, silk) that enhance interior spaces.

Specialty Paints: Products designed for specific needs, such as low-VOC options

for better indoor air quality.

Exterior Paints

Weatherproof Coatings: Formulated to withstand various weather conditions, offering protection and color retention.

Acrylic Paints: Durable and flexible options for exterior surfaces, providing excellent adhesion and finish.

Wood Finishes

Varnishes and Stains: Protective finishes that enhance and preserve the natural beauty of wood surfaces.

Wood Treatments: Products designed to protect against moisture and pests.

Metal Finishes

Enamels: High-quality coatings that provide a tough, glossy finish suitable for metal surfaces.

Anti-corrosive Primers: Essential for protecting metal surfaces from rust and degradation.

Primers and Undercoats

A comprehensive range of primers tailored for different surfaces, ensuring superior adhesion and durability

Surfaccoat Paints Product Profile

Overview

Surfaccoat is known for its high-quality coatings and paint solutions, primarily

catering to the needs of both residential and industrial sectors. With a focus on durability, performance, and aesthetic appeal, Surfaccoat aims to provide

innovative products that meet diverse customer requirements.

Key Product Categories

Interior Paints

1. **Emulsions:** Available in various finishes (matte, silk, satin) that offer
2. excellent coverage and washability for residential interiors.
3. **Textured Finishes:** Unique options to create depth and interest on interior walls.

Exterior Paints

1. **Weather-resistant Coatings:** Formulated to endure harsh weather
2. conditions while maintaining color vibrancy and protection.
3. **Acrylic Paints:** Durable solutions suitable for a variety of outdoor
4. surfaces, providing flexibility and long-lasting performance.

Wood Finishes

1. **Stains and Varnishes:** Protective coatings designed to enhance and preserve
2. the beauty of wood, offering various sheens and colors.
3. **Wood Treatments:** Products to protect against moisture, UV damage, and
4. pests.

Metal Finishes

1. **Enamels:** Tough, glossy coatings ideal for metal surfaces, providing
2. durability and aesthetic appeal.
3. **Rust Prevention Coatings:** Essential for prolonging the life of metal
4. surfaces in harsh environments.

Primers

1. A comprehensive range of primers tailored for different surfaces,
2. ensuring optimal adhesion and improved finish durability.

CHAPTER - 5

SWOT ANALYSIS

SWOT Analysis for a Paint Company

Strengths

Brand Reputation: Established brands often enjoy strong customer loyalty and recognition, which can lead to repeat business.

Product Range: A diverse portfolio of products, including interior, exterior, specialty paints, and eco-friendly options, caters to various customer needs.

Innovation: Investment in research and development leads to innovative products (e.g., low-VOC paints, advanced finishes) that meet modern standards.

Distribution Network: A strong supply chain and distribution network ensure wide availability and accessibility of products.

Weaknesses

High Competition: The paint industry is highly competitive, with numerous local and international players, making it challenging to maintain market share.

Cost Sensitivity: Fluctuating raw material prices can affect profitability, especially in a price-sensitive market.

Limited Market Penetration: Some companies may struggle to penetrate

emerging markets or specific demographics effectively.

Environmental Regulations: Compliance with stringent environmental regulations can increase operational costs and limit product formulation options.

Opportunities

Sustainability Trends: Growing consumer preference for eco-friendly products presents an opportunity to expand the range of sustainable paint options.

Emerging Markets: Expanding into developing countries can provide new revenue streams as urbanization increases.

Digital Transformation: Utilizing e-commerce and digital marketing can enhance customer engagement and streamline the purchasing process.

Customization: Offering customizable paint solutions or personalized color consultations can attract a niche market.

Threats

Economic Fluctuations: Economic downturns can lead to reduced consumer spending on non-essential items, including home improvement.

Raw Material Supply Issues: Disruptions in the supply chain or increases in the cost of raw materials can impact production and pricing.

Technological Disruption: Advances in alternative materials or technologies (like advanced coatings) could disrupt traditional paint markets.

Environmental Concerns: Growing awareness and regulation

around environmental impact can pose challenges for traditional paint formulations.

CHAPTER-6

SUGGESTION

Proper control over various expenses may increase the profit generation of a company.

(2) To purchase raw material at lower cost will reduce the cost of material

(3) The company can reduce the cost of production and try to improve its profitability.

(4) The company has to give importance to maintenance and consumption of

(5) raw

materials which would otherwise result in the overstocking and leads to obsolescence

(6) In order to overcome the expenses the firm may reduce the operating

(7) expenses.

Labour cost, material cost and other overheads are reduced so as to improve the

profitability of the company

CONCLUSION

The Indian paint industry has been witnessing a gradual shift in the preferences of people from the traditional whitewash to high-quality paints like emulsions and enamel paints, which is providing the basic stability for growth of Indian paint industry. Besides, it is creating a strong competitive market, where players are utilizing different strategies to tap the growing demand in the market for a larger share. Moreover, rise in disposable income of the average middle class coupled with increasing investment on education; urbanization; development of the rural market; and various launches of many innovative products, like friendly, odour

free, and dust & water-resistant paints, are major drivers that are propelling the growth of the paint market in India. India Paint Industry Outlook, 2022 provides a study of Indian paints industry by value and volume, which is expected to grow at a CAGR of around 12% during 2018-2019 to 2021-2022 in value terms. The reports provide in-depth detailed insight on the Indian decorative and industrial paint segment. As per the report finds, decorative paints has the maximum demand.
